I.E.M.E. Authoritative List

PREFACE

1. This list has been prepared for the purpose of identifying any component Part or assembly of Parts. All concerned will use the designations given in this list when demanding Spare Parts from Ordnance or when referring in correspondence to any Part of the Equipment.
2. The Catalogue or Part Numbers quoted in this list will supersede any other Catalogue or Part Numbers that may have been allotted previously.
3. When demanding Spare Parts the following particulars must be quoted:—
Catalogue or Part Number, Designation of Part and Designation of the Equipment for which the part is required.
4. For interpretation of any marginal signs appearing in this list, reference should be made to the appendix
5. Alternatives quoted apply only to the equipments covered by this list and it must not be assumed that they may apply to other equipments.
6. Abbreviations and symbols appearing in this list are generally in accordance with those accepted and recognised by the British Standards Institution. Where deviation has been made, such cases are enumerated in the appendix on the last page.
7. Amendments to this list will be notified in A.C.I.s. Units concerned will indent through the appropriate D.D.O.S. (Printing and Stationery Section) for copies as required. It is essential that this list should be carefully amended and the date of each amendment entered in the space below.
